LAUNCH

BURNED YEET

123,456,789

 YEET ROCKET GameFi

- Launch \$Y33T to see if it moons or burns
 - 33% of failed launch stakes are burned
- Proof-of-burn rewarded with \$BURN token

- NFT rewards, multiplier risk rounds, and meme-tier humor

YEET ROCKET Mechanics

- Game includes: explosion outcomes, moon wins, cooldowns with Yeetlon MARS quotes, legendary moments
- Extended outcomes and Easter eggs like Pepe.jpg of Death after 10 failures
 - Dynamic rocket/NFT skins (YEETROCKETmk1, mk2, etc.)

YEETLON MARS

- Evolvable NFT character with traits that change based on player performance
- Different appearances and seasonal variants

Tokenomics

- **Token Supply:** 987,654,321 \$Y33T
- **Staking Rewards:** Distributed via inflation and transaction fee pool
- **Halving Mechanism:** Long-term emission reduction model
- **Future Enhancements:** Auto-compounding, slashing for inactivity, on-chain governance

•

\$BURN Token (Proof of Burn)

- Earned via YEET ROCKET when \$Y33T is burned in-game
- \$BURN can be paired in LPs or used in reward events
- Supply is deflationary and tied to YEET ecosystem participation

Initial Token Sale (ICO)

- Hosted on yeet.services

- Users can swap SOL or meme coins for \$Y33T
- Early supporters receive access to NFT airdrops, early staking access, and meme coin contests

Cross-Chain Strategy

- \$Y33T bridges from Solana to Cronos using SwapSpace aggregator
- Official bridge: <https://swapspace.co/cross-chain/sol-cro-bridge>

Brand Identity

- Cyberpunk x Meme Culture x Financial Freedom
- Color Scheme: Neon turquoise, gold, deep space gradients
- Mascot: Yeetlon MARS, NFT Gladiator Rockets, Meme Coin Arena
- Slogan: "Visual Identity of the YEETVERSE"

Future Plans

- NFT trait evolution system
- YEET Rocket tournaments + betting
 - Rocket Garage mint UI

- DAO governance for emissions and burn ratio
- Integration with mobile wallets and dApps
